JTYJN-Part 6 (W/ENG SUBS)

A group of friends including Rotlu, Jiggy, Bombs, Shaleen, and a recent addition, Mala, arrive at the airport and find out the flight they are waiting for will arrive an hour late. In the mean time, the group offers to tell Mala a love story between the friends that are arriving, Jai (Imraan Khan) and Aditi (Genelia D'Souza). Jai Singh Rathore ("Rats") has been raised by his mother to be gentle and non-violent. Aditi ("Meow") is just the opposite; her emotions are often in the extremes. Funnily, these two are inseparable friends who are so close to each other that most people, including the group of friends and parents mistake their friendship for love. However, Aditi and Jai both are looking for different qualities in their future spouses--Aditi wants someone who, unlike Jai, would be able to fight to protect Aditi; and Jai wants someone who, unlike Aditi, is a calm-minded girl.

The friends decide one day that since they both know each other so well, Aditi and Jai should find a match for each

other. The plan is put into affect and soon enough, Jai finds his first love, Meghna, a girl he cleverly saves from a couple of misbehaving cowboys at a club. As Jai spends more and more time with his new-found girlfriend, Aditi quickly feels the burn of losing Jai's friendship. She is irritated with Jai and Jai is not able to understand why his best friend is behaving oddly.

Suddenly, Aditi herself becomes engaged to her father's friend's son, Sushant, who at first appearance, seems to be just what she's looking for: he's romantic and "a stud". However, Aditi soon realizes after several dates with Sushant, that the qualities she had been looking for and what are present in Sushant are not at all what she's expected. Along with extreme temper, Sushant also seems to have a lengthy girlfriend background and abusive behavior.

At the same time, Jai loses interest in Meghna when he finds out that she is not in touch with reality. At first her "What's this?" game, where Meghna gives imaginative descriptions for ordinary sights, seems fun. But later, when Jai notices that Meghna seems oblivious to her parent's rocky relationship, he is convinced that she might have deeper problems.
